

Contract Carrier Charges for Trade Fairs and Exhibitions in Düsseldorf 2022

FIRST

Fair Intelligent Registration System for Trucks

KN EXPO & EVENT Logistics

Official Service-Partner
of
Messe Düsseldorf GmbH

General Conditions

1. The following on-site handling rates for exhibitions and trade shows in Düsseldorf include all forwarding and handling services performed by the exhibition forwarder as official contractor of Messe Düsseldorf GmbH.

The exhibition forwarders appointed by Messe Düsseldorf as official contractors have the sole handling and lifting right within the Düsseldorf Fairground i.e. transport of exhibition goods and stand-fitting materials etc. to and from the stands, incl. the disposal of the necessary technical equipment as well as customs clearance procedures for temporary and/or permanent importations.

2. The German Forwarder's General Terms and Conditions (ADSp) - last amended version - including these exhibition forwarding rates apply or BSK conditions shall apply to all orders placed with the contract carrier. These can be examined in the exhibition forwarder's office on site.

Place of performance and jurisdiction for both parties is Düsseldorf. All charges and expenses are payable according to this tariff upon completion of the particular service. The exhibition forwarding agents are authorized to demand a deposit or advance payment for all services ordered under this tariff.

Due within 10 days from date of invoice. The forwarding agent reserves the right to change the payment terms with prior notice.

3. The exhibition forwarder's liability ends with the delivery of the exhibition goods or empty packing materials to the exhibitor's booth, even if the exhibitor or his representative are not present. With regard to the return transport said liability is only resumed with the collection of the exhibition goods from the booth, even if the shipping documents were delivered to the exhibition forwarder's office prior to the collection.
Further valid, are the rules and regulations which are issued by the organizer for each specific event.

4. Empty packing materials will be collected and stored by the contracted forwarding agent only upon specific order. If there are empties still inside the halls prior to the opening of an event, the exhibition forwarder is authorized to remove them upon the organizers request, even if no explicit order was given by the exhibitor. The charges incurred are for the exhibitors account.

Empty packing materials will be insured by the exhibition forwarder **only upon specific written order**. Only empty packing materials can be regarded as "empties". No liability will be accepted for possible contents. A smooth and rapid redelivery after the closing of an event can only be guaranteed if the empties were handed over to the exhibition forwarder in an orderly packed condition (i.e. cases, crates and cardboard boxes must be closed, all loose pieces must be tied up) and clearly marked with the exhibitor's name, hall and booth number.

5. All claims must be reported to the exhibition forwarder's office in written form and immediately upon receipt of the exhibition goods.
6. The list/directory of the forwarding charges will enter into force from 01.01.2022 and ends on 31.12.2022. All rates shown are net rates. Legal VAT, if applicable, will be shown separately on the invoice.
7. Besides the general regulations from the organizer are binding.
8. Service not mentioned in here as per separate quote

FIRST – The New Truck-Slot System

In 2018 the proven truck routing system was extended to include a slot system. It sends a notification of the truck already at the time of ordering the forklift truck required for loading or unloading. The Slot System ensures accelerated handling of the truck and autonomously reserves the required parking space in front of the relevant hall at the desired point in time.

The slot can only be reserved in conjunction with a forklift truck or crane and is booked bindingly with the accredited trade fair forwarding agent. The booking fee is € 20.00 € per slot. Your trade fair forwarding agent will be pleased to advise you!

Attention: The loading/unloading time is fixed and is usually observed. Due to delays in the course of the trade fair, however, the times may be postponed, especially to a later date. Claims for damages or stand fees are expressly excluded.

Please note that the slot booking is associated with the provision of a forklift. Even if the forklift is not used, a provision fee of 140.00 € Euro will be charged.

I. Transport of exhibition goods to or from booth / warehouse from free arrival Düsseldorf Fairground or vice versa
